Deputy Executive Engineer (Electrician)

2026

Ports Authority of Gujarat / Assistant Engineer (Electrical)

Consider the following features of the Gujarat Solar Power Policy 2021: 1. It removed the restriction on installed capacity for solar projects with respect to

A

1 and 2 only

B

2 and 3 only

C

1 and 3 only

D

1, 2 and 3

Correct

Correct Answer: D

Full Detailed Explanation

Correct Answer: D - 1, 2 and 3 Quick Concept Explanation This PYQ tests specific provisions attributed to the Gujarat Solar Power Policy 2021, including capacity treatment, self-consumption project location and developer/security requirements. Because policy clauses are notification-specific, the answer should be tied to the policy version named in the question rather than generalized from current rooftop-solar rules. Exam focus: Read every policy statement literally and avoid importing rules from a different scheme/year. Common trap: Do not substitute current regulations for the policy version named in a PYQ. Statement-wise Verification Statement 1 - Correct. It removed the restriction on installed capacity for solar projects with respect to the sanctioned load. This PYQ tests specific provisions attributed to the Gujarat Solar Power Policy 2021, including capacity treatment, self-consumption project location and developer/security requirements. Statement 2 - Correct. It allows consumers to set up solar projects for self-consumption on their premises or elsewhere. This PYQ tests specific provisions attributed to the Gujarat Solar Power Policy 2021, including capacity treatment, self-consumption project location and developer/security requirements. Statement 3 - Correct. It provides for a security deposit to be submitted by the developer to the Distribution Licensee.
