

Easy

Assistant Engineer (Electrical), Class 2025

Building Department

The Gujarat Small Hydel Policy of 2016 typically applies to hydroelectric projects with a station capacity upto _____.

A

10 MW

B

25 MW

Correct

C

50 MW

D

100 MW

Correct Answer: B

Full Detailed Explanation

Concept & Reasoning: Small-hydropower policy thresholds define the project class for state incentives/implementation rules. The 25 MW value is also widely associated with the conventional Indian 'small hydro' category, making it an important exam fact.

How to Solve It in the Exam: Remember 25 MW category limit. Important Exam Point: Use the threshold specified by the policy context, not an arbitrary plant-size intuition.

Related Revision Path: This question sits in the revision path Electrical Laws, Standards and Energy Policy → Renewable Energy Policy → Small Hydropower.
