Moderate | Assistant Engineer (Electrical), Clas | 2025 | Building Department

The ’Perform, Achieve and Trade’ (PAT) scheme is a market-based mechanism to improve energy efficiency in large industries and is a part of the ____________.

A Electricity Act, 2003

B **National Action Plan on Climate Change (under BEE)** Correct

C Gujarat Waste to Energy Policy

D Indian Electricity Rules, 1956

Correct Answer: B

Full Detailed Explanation

Concept & ReasoningDesignated consumers receive specific energy-consumption reduction targets. Facilities that exceed their targets can earn tradable Energy Saving Certificates (ESCerts), while underperforming facilities must comply through additional improvements or certificate mechanisms. PAT is associated with the National Mission for Enhanced Energy Efficiency under the climate-action framework.How to Solve It in the ExamPAT industrial efficiency + tradable energy-saving certificates.Important Exam PointDo not confuse PAT with renewable-energy certificates (RECs), which serve a different policy mechanism.Related Revision PathThis question sits in the revision path Electrical Laws, Standards and Energy Policy Energy Efficiency Industrial Energy Efficiency .
